Subject: NOTICE: URGENT voting rights issue

June 25, 2014

County Clerk and Recorder Hall, Deputy Secretary of State Staiert:

It is my understanding that:

- Mr. Jim Remmert was denied a ballot on Election Day. He lawfully registered to vote, using a paper form provided by election judges, under the same-day voter registration provision of the law. He was required to use a provisional ballot for voting. The legal date of Mr. Remmert's registration transaction is Election Day; other same-day voter registrants were issued a regular ballot.
- Apparently there is a timing/synchronization defect in the same day voter registration process and/or SCORE. Under certain circumstances it does not facilitate legal registration and voting on Election Day.
- Ms. Tayer has made assertions that Mr. Remmert is not eligible to serve on the Canvass Board. It is my understanding that she does not have the authority to make such a decision. Nor does the County Clerk and Recorder. The American Constitution Party Chair has certified to the Clerk the appointment of Mr. Remmert.

I am writing to ensure that you are apprised, on the record, of this violation of Remmert's voting rights, and of the technical problem with the election system.

Also, I ask that you immediately intervene in whatever process is interfering with Mr. Remmert's voting rights, and his qualification to serve as a member of the canvass board.

Please acknowledge receipt of this notice, and confirm your responsibility for addressing these problems.
